About EEIC'25

The Electrical Engineering Department of University A. MIRA of Bejaia, organizes in collaboration with the LGEB, LT2I and LMER research laboratories and LaMOS Research Unit, the third edition of the **Electrical Engineering International Conference (EEIC'25)**. The conference will take place from December 2 to 3, 2025 at Targa Ouzemmour campus in Bejaia, Algeria. This event serves as a platform for discussion, bringing together PhD students, researchers and professionals to present their research findings, exchange ideas and collaborate on recent advancements in the field of Electrical Engineering and related disciplines. Additionally, representatives from the socio-economic sector will have the opportunity to share their concerns with the scientific community and explore potential partnerships and collaborations on current research topics.

Topics

- Control Systems and Applications
- Electrostatics and High Voltage Engineering
- Electromagnetic Field and Compatibility
- Power Electronics and Applications
- Telecommunication Systems and Networks
- Electric Power Systems
- Electrical Machines and Drives
- Robotics and Artificial Intelligence
- Signal and Image Processing
- Renewable and Sustainable Energies
- Maintenance and Reliability of Electrical Engineering Systems

Paper Submission

Prospective researchers and students are invited to submit their papers in English: Full papers (in docx or pdf format, minimum 04 pages; maximum 06 pages) according to the EEIC'25 template format via the conference web site.

Publication

Accepted, registered and presented papers will be published in the proceedings of EEIC'25 with ISBN. Extended version of selected papers in EEIC'25 will be considered, after a reviewing process, for publication in the indexed journal : *The Journal of Renewable Energies*.

Registration fees

	Accommodation: Without	With
Standard:	15000 DZD	25000 DZD
Student:	6000 DZD	16000 DZD
