About EEIC'25

The Electrical Engineering Department of University A. MIRA of Bejaia, organizes in collaboration with the LGEB, LT2I and LMER research laboratories and LaMOS Research Unit, the third edition of the **Electrical Engineering International Conference (EEIC'25)**. The conference will take place from December 2 to 3, 2025 at Targa Ouzemmour campus in Bejaia, Algeria. This event serves as a platform for discussion, bringing together PhD students, researchers and professionals to present their research findings, exchange ideas and collaborate on recent advancements in the field of Electrical Engineering and related disciplines. Additionally, representatives from the socio-economic sector will have the opportunity to share their concerns with the scientific community and explore potential partnerships and collaborations on current research topics.
